FORAKER OPENS FIRE ON ALL HIS FOES.

Issues Long Statement Defending Himself Against Many Charges.

Ohio Senator Denies Illegal Employment by Standard Oil Company and Takes Frequent Raps at President Roosevelt and Taft on the Rate Bill and the Brownsville Riot Cases.

[ASSOCIATED PRESS NIGHT REPORT.]

CINCINNATI (O.) Sept. 25.—In a long and carefully prepared statement United States Senator J. B. Foraker today took up recent charges made by William R. Hearst and President Roosevelt explaining his temporary connection with the Standard Oil Company and discussing the Brownsville incident and his connection with the rate bill.

THE TEXT OF SENATOR FORAKER'S STATEMENT.

The text of Senator Foraker's statement is as follows:
"The President commences his statement connected with the publication of Judge Taft's letter with a bitter arraignment of me because of charges which he appears to have accepted as fully proven as soon as made. He does not wait for proof or explanation nor accept the same when offered.
"The charges are not simply that I was in the employment of the Standard Oil Company and that I was paid for my services, but that I was secretly in that employment for illegitimate purposes and that the money I received was paid as compensation for improperly influencing legislation by Congress in conflict with, and in violation of my official duties.
"He read a number of letters and made certain comments calculated to create the belief that his charges were true."
NEVER CONCEALED.
"That I was employed by the company was never concealed, or denied. On the contrary, such employment was well-known at the time of all concerned. Only a few days ago, ex-Atorney General, who was present during the proceedings against the Standard Oil Company as the time, stated in a public interview that I told him at the time that I had been retained by the company. I employed and rendered services presumably I was compensated.
"In concealing, therefore, the mere fact that I was employed by the company and showing that I received payments on that account no information was withheld and no effort was made to conceal it. It remained that such employment and payment might be entirely proper and legitimate."
CONFORM TO LAW.
"Under all the circumstances, an explanation was required, and in former statements I made such explanation by showing that my employment was confined to the affairs of the company in Ohio and in its reorganization after the Federal government by order of our Supreme Court, and that my employment had no relation in the slightest degree to anything in which the Federal government was then interested or with respect to which the Congress was then legislating or at that time proposing to legislate, and that employment was ended long before any special attention in Congress was given to the Standard Oil Company in the Federal courts or proceeded against in any way by the Federal government; and further, that the employment was not to defend the company against charges of violation of the laws of Ohio or the United States or the orders of any of the courts, but to assist in executing the orders of the courts and so reorganizing as to conform to all laws, State and national, and to fully comply with all the orders of the court that had been made against it."
"If my statements in this behalf are true, no competent defense against the charges and all deductions therefrom of improper conduct, unless the ethics involved have been radically changed, would be possible. I have always heretofore been supposed to be. From the beginning of our government Senators and Congressmen have been lawyers and were regarded as free to continue the practice of their profession if they so desired during their terms of office, and to do so without interfering with their public duties; and in such practice free to take any kind of employment that was not in conflict with their duties as members of Congress."
NEVER BEFORE QUESTIONED.
"Nobody has ever before been criticized on such account. The only question has been as to the character of business a Senator or Congressman was at liberty to take and uniformly and universally it has been considered that there was no prohibition of any class of business, outside of those named in the statutes and such business as might conflict with public duties."
"When I accepted the employment of the Standard Oil Company in 1893, it was not foreseen by me, and probably not by anybody else, that it would become the object of Federal legislation or of Federal prosecuting or action of any kind, and that employment ended when the company decided to reorganize under the laws of New Jersey, which was before anything of that nature occurred."
"That I was not in the employment of the company after the services I had rendered, and that such employment did not afterward influence me to favor the company in legislation, is shown by the fact that I took in the Standard Oil Company, approved February 19, 1897, under this statute the Attorney General has brought, and caused to be brought, all the prosecutions against the Standard Oil Company, of which we have read so much, including the case in which Judge Landis imposed the fine of \$25,000."
GIVES CORRESPONDENCE.
"But if that fact is not sufficient, the following correspondence is not only additional proof, but conclusive in its character, to the same effect:
"NO. 26 BROADWAY, NEW YORK, May 7, 1908.—My Dear Senator: In the

BREATHING DEFIANCE TO ONE AND ALL.

United States Senator Foraker, of Ohio, who in a lengthy statement issued last night replied to his critics and defends his conduct against charges recently heaped upon him.

HASKELL QUITS UNDER FIRE; IS DISGRACED.

Bryan Fears Result of Conference With His Treasurer—Resignation Demanded from All Parts of Country in Attempt to Save Party.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Sept. 25.—[Exclusive Dispatch.] Gov. Charles N. Haskell of Oklahoma has resigned as treasurer of the Democratic National Committee.
The Oklahoma executive returned to Chicago tonight, and after deliberating for three hours in his rooms at the Auditorium Annex, sent his resignation to National Chairman Norman E. Mack at New York headquarters.
The retirement of Mr. Haskell from the head of the finances of the campaign is the outcome of the charges that have been made within the past fortnight by President Roosevelt, Hearst, Frank J. Monnett, former Attorney-General of Ohio, and Atty.-Gen. Wade of Oklahoma.
All night long the air at headquarters was filled with reports that Haskell would leave his position in order to save Bryan from further investigation, and in order not to impair his chances at the polls, but the abruptness of the resignation took away the breaths of the leaders.
Haskell came up from Guthrie post haste tonight, cancelling his campaign dates in Iowa and his home State, in order to meet Bryan tomorrow and to go over the accusations that have been made against him.

BRYAN FEARS CONFERENCE.

But from Terre Haute came word that the friends of the Nebraska senator were advising him to steer clear of a conference on the subject, on the grounds that if he talked with Haskell and did not demand his resignation he would be hampered by the fact that the treasurer of his campaign was under the fire of shot and shrapnel, while if he did ask him to resign it would be construed as tantamount to an announcement that Bryan had investigated and had found substance behind the charges.
National Chairman Norman E. Mack is in New York, where he conferred today with National Committeemen Roger C. Sullivan of Illinois and Urey Woodson of Kentucky, secretary of the National Committee, over the Haskell episode. Each of the three officials kept the outcome of their conference, but it leaked out that they concluded that the continuance of Haskell on the committee would jeopardize the chances of party success, and that if Bryan asked for his ad-

ELOPED WITH FORMER WIFE.

After Six Weeks' Separation Couple Run Away and Marry.

[BY DIRECT WIRE TO THE TIMES.]

TRINIDAD (Colo.) Sept. 25.—[Exclusive Dispatch.]—Edward C. Hausman, a member of the Hausman Drug Co., eloped to Raton, N. M., today with his divorced wife, Ardeline Priest Hausman, and remarried her. Mrs. Hausman was a former society girl in Canon City and her first marriage to Hausman took place in Denver a year ago. Six weeks ago Mrs. Hausman, who is both young and handsome, secured a divorce on the grounds of extreme and repeated acts of cruelty. Hausman did not contest the suit and willingly paid \$3500 alimony.
Hausman began courting his wife immediately after she secured the divorce and the two were constantly together. The final patch-up of their domestic troubles was reached yesterday when they went to Raton to be married without the knowledge of their relatives or friends. The Hausmans will spend their second honeymoon visiting Mr. Hausman's mother in Cincinnati.

ENOUGH SAID.

SIXTEEN ITEMS AGAINST GOULD.

WIFE RELATES INSTANCES OF MISCONDUCT.

Defendant Asks for More Specific Charges; Mrs. Gould Replies That He Knows What House He Visited in Canada and Also Supplies Name of New York Woman.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Sept. 25.—[Exclusive Dispatch.] Sixteen charges of misconduct appear in Helen Kelly Gould's amended complaint against her husband, Frank J. Gould, whom she is suing for a divorce. Some of the paragraphs give the names of the women, and these were carefully concealed by the lawyers, who appeared before Justice Geiger today.
Lawyer Fuller for the husband, applied for an order directing Mrs. Gould to serve a bill of particulars making more definite and specific her charges against him. Mr. Fuller contended for more particulars in three paragraphs. In one she charged that, while cruising on his yacht, the Helentina, Mr. Gould sailed into the harbor of North Sydney, Cape Breton, Canada, landed and spent some time with a young woman. That was June 25, 1904. Mr. Fuller wanted to know more about it.
"We believe that the paragraph is quite specific," said Mr. Sprague, Mrs. Gould's lawyer. "Mr. Gould knows what house he visited in that little Cape Breton town. I concede that had the house been in New York or London or any other big city, it would have been necessary to locate it more closely."
"As for the other second paragraph complained of, we have furnished what was asked; that Mr. Gould visited a woman whose name Mrs. Gould has supplied, in May and June, 1907, at the house, No. 308 West Fifty-eighth street.
Justice Geiger reserved his decision.

NOTED PHYSICIANS CONFER.

Real Work of Tuberculosis Convention Begins—Dr. Koch Takes Part in Discussion.

[PHILADELPHIA, Sept. 25.—] With all the preliminaries incidental to organization out of the way, the delegates to the International Conference on Tuberculosis today gave undivided attention to the technical discussion on the cure and prevention of consumption. The leading men of Europe and America in the war on the disease joined in the discussion.

DUNHAM SUSPECT EXTRADITED.

AUSTIN (Tex.) Sept. 25.—The governor today honored a request of the State of California for the extradition of James S. Dunham now in jail at Sherman and wanted in San Jose to answer to the charge of murdering six people.

PHILIPPINE TOWN BURNED.

MANILA, Sept. 25.—A large portion of the town of Pasig, near Manila, has been destroyed by fire.

SOCIETY IS SNUBBED.

Pittsburgher's Rage at Vanderbilts

Reggie and Partner Attending Horse Show at the Vanderbilt

Treat Blue Bloods of Smoky City With Contempt

Accorded Flunkies.

Magnates and Their Dames Are Treated With Scant Courtesy.

[BY DIRECT WIRE TO THE TIMES.]

PITTSBURGH, Sept. 25.—[Exclusive Dispatch.]—After anticipating for weeks and weeks the coming here of the Reggie Vanderbilts to attend the horse show at the Smoky Highlands Country Club, Pittsburgh millionaires have been cut dead by the Vanderbilts party. They will have none of them and treat them with about the same contempt as the Pittsburgh millionaires do the flunkies at the Waldorf-Astoria, their Mecca.
In the Vanderbilt party, in addition to Mr. and Mrs. Vanderbilt, are Mrs. H. S. Kipp, D. M. Hare and Frances Gibson, all of New York. It is noticed that the party would be the guests of President W. W. Williams, the millionaire banker, as the Allegheny Country Club, but when the Vanderbilts party arrived they announced that they did not prefer to pay their own expenses during their stay at the club.
On Thursday night, a grand ball was arranged in honor of the Vanderbilts and other guests. Everybody simply went daffy about it and fought for invitations when it was positively announced that the Vanderbilts party would attend. But they did not.
When the horse show started yesterday afternoon the Vanderbilts did not leave their box, and the more prominent members of the country club plucked up sufficient courage to enter the box but they were treated with scant courtesy and none of them were invited to take a seat, although the number of vacant seats were in the box.
Yesterday evening the Vanderbilts were seated at the table of honor in the dining-room at the country club. They requested that they be served at a table alone, in some quiet corner.
This afternoon before the horse show started, Mrs. W. P. Snyder, wife of the Pittsburgh iron king, gave a swimming party at her palatial mansion near the country club. The Vanderbilts sent their regrets, as they did to a dinner which was to have been given this evening in their honor.
"Reggie" has paid no attention to any one here except the camera men. To them he has been extremely courteous, and posed for the camera men as often as they requested.

IN LAST DITCH.

COL STEWART TO MAKE FIGHT.

BROTHER GOES TO WASHINGTON AS COUNSEL.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Sept. 25.—[Exclusive Dispatch.] Charles F. Stewart, the San Francisco attorney, is here to make a fight for his brother, Col. W. F. Stewart, when the latter is called before the army retiring board in a few days. Col. Stewart's friends believe that an effort is being made to railroad him out of the service. His brother says that Col. Stewart assures him he is physically sound, and he will resist compulsory retirement, as he has five years yet to serve, and even the President, it is asserted, cannot retire him until he becomes 62 years of age, which will be in three years. He "comes of fighting blood," Col. Stewart's brother asserts, and will fight to the last.
Much mystery has been made of the Stewart case, but according to officers in the service, Col. Stewart is the meanest man in the army, being a confirmed martinet and harassing his men in a perfectly unbearable manner, being almost fustian in the ingenuity with which he makes himself obnoxious without transgressing any of the regulations or laying himself liable to official censure for any particular act. As he was not allowed to take riding test at Fort Huachuca, Ariz., on the ground that he was physically unfit, he will very likely be retired for disability.

PORTUGUESE OFFICIAL STONED.

CASCAES (Portugal) Sept. 25.—Senator Magalhães, the Portuguese Minister of Public Works, was assaulted by unknown persons here today. As his train was passing through the town it was subjected to a volley of stones. The windows of the Minister's car were broken and he was struck and sustained a lacerated head.

FOOTBALL PLAYER PARALYZED.

WATERBURY (Conn.) Sept. 25.—William Bathurst Martin, half-back of the Waterbury High School football team, is in a serious condition as the result of an injury to his spinal column during a practice game of football yesterday. His body is paralyzed from the shoulders down.

PROMOTIONS ON ESPEE ROAD.

Four Officers Make Changes
Startling Sequence.

R. H. Ingram to Leave Los
Angeles for Mexico.

H. V. Platt Succeeds to Good
Office Vacated.

San Francisco, Sept. 25.—[Ex-
clusive Dispatch.] Four promotions
of Southern Pacific operating officials
were announced today by Assistant
General Manager Calvin, to take
effect October 1.

The changes result in the resignation
of R. H. Ingram from the coveted po-
sition of general superintendent of the
southern district, with headquarters at
Los Angeles. Ingram, it is understood,
is going to some higher position
offered him by Espee Railroad, who has
charge of all the Harriman lines and
railroad interests in Mexico. Ingram's
place will be taken by H. V. Platt, who
is promoted from the superintendency
of the Los Angeles division.

Platt's place as superintendent of the
Los Angeles division is to be taken by
W. H. Averell, superintendent of the
Tucson division. Averell is a nephew
of the late J. H. Dyer, superintendent
of the line out of the desert country
has been regularly expected since he
was promoted some months ago from
assistant superintendent of the San
Joquin division and sent down into
Arizona as a full-fledged division
superintendent.

Averell's place as superintendent of
the Tucson division is to be taken by
W. H. Wheeler, superintendent of the
Shasta division, with headquarters at
Dunsmuir.

Wheeler's place is to be taken by
J. H. Dyer, plainmaster on the Sacra-
mento division.

Railroad men are guessing as to how
long it will be before Harriman's
nephew comes up into the bay district
and begins to assume more importance
in official positions.

MAXINE ORDERED TO RENO.
Actress Summoned to Answer to Nat
Goodwin's Charge of
Desertion.

San Francisco, Sept. 25.—Bessie Hall Good-
win has been ordered to appear be-
fore Judge Pike on December 20 and
answer to the complaint of divorce filed
against her by Nat C. Goodwin in the
District Court last Monday.

The order was made this morning by Judge
Pike on the affidavit of Goodwin, the
noted painter of New York and Bos-
ton, who has been married to Miss Es-
telle C. Leighton, the beautiful model
who posed for his famous painting,
"The Wood Nymph."

"The Wood Nymph" is about to bring
suit in Boston for separation. This
admission he made today at his pic-
turehouse cabin in White Mountains,
near Wonalancet, N. H.

His wife left him last April because
she had determined to study for the
operatic stage and he opposed her de-
termination. She is now in New York
looking over the opera and rehearsing for
the part she is to play in Reginald
DeKoven's new opera, "The Golden
Butterfly."

Shortly after her marriage to Major
she became acquainted with Mr. and
Mrs. Charles H. Bond of Boston, and
mentioned to them her desire to study
for opera. Bond, who was a millionaire,
had sent Geraldine Farrar, Ada
Chambers and many other Massachu-
setts girls to study, and he
agreed to pay all Mrs. Major's ex-
penses.

In late July, after the separation of
the artist and his wife, Bond com-
mitted suicide by drowning himself in
a bath tub in his mansion at Swamp-
scott, Mass.

San Francisco, Sept. 25.—After
a month spent in examining the
jury necessary to try Abraham
Ruef on the charge of bribery, the
jury has been selected. After three challenges
on each side today, six jurors were
accepted and sworn in.

Henry this morning challenged Meyer
on the ground of bias, and prejudice
against the prosecution, and placed
Joseph B. Seely on the witness stand,
who testified that Meyer said to him
that "the graft prosecution was hurt-
ing business in the city and ought to
be stopped."

Henry Ach, counsel for Ruef, re-
sisted the challenge, which was finally
allowed by Judge Lawlor, but got un-
til the entire morning session had been
consumed with examination and cross-
examination of Seely.

San Francisco, Sept. 25.—A de-
legation of thirty California bankers,
with a number of lesser accompan-
ing a supplementary party, left tonight
by special train for Denver, to attend
the session of the National Bankers'
Association. Saturday will be spent at
Lake Tahoe and a stop will be made
at Salt Lake.

Auto Plunges from Trestle.
SPOKANE, Sept. 25.—Plunging from
the East Sprague-avenue trestle almost
at the same spot where O. D. Collins
lost his life in a similar accident two
weeks ago, an automobile belonging to
J. W. Snyder fell sixty feet last night,
killing the owner and injuring two other
occupants, W. H. Walker of Tacoma
and Miss Mary Thompson.

TYPHOON FATALITIES FEW.
Great Damage to Property in Philip-
pines, but Few Lives
Are Lost.

Manila, Sept. 25.—More extensive
reports regarding the southern typhoon
that swept through the central section
of the Philippine group yesterday, have
been received, indicating that while
there was great damage to property,

the entire block between Third and
Fourth and Washington and Clay
streets, was soon completely de-
stroyed. In this block, among other
business wiped out, were those of the
Bay City Iron Works and the Reliance
Engineering Company.

Other businesses burned are the Par-
cell Safe Company, California Stand-
ard Milling Company, Bay City saloon,
Vetta Pattern Works and Salem horse
market.

It is impossible at this time to esti-
mate the loss, but it will approximate
\$100,000, fully insured.

sisted the challenge, which was finally
allowed by Judge Lawlor, but got un-
til the entire morning session had been
consumed with examination and cross-
examination of Seely.

San Francisco, Sept. 25.—A de-
legation of thirty California bankers,
with a number of lesser accompan-
ing a supplementary party, left tonight
by special train for Denver, to attend
the session of the National Bankers'
Association. Saturday will be spent at
Lake Tahoe and a stop will be made
at Salt Lake.

Auto Plunges from Trestle.
SPOKANE, Sept. 25.—Plunging from
the East Sprague-avenue trestle almost
at the same spot where O. D. Collins
lost his life in a similar accident two
weeks ago, an automobile belonging to
J. W. Snyder fell sixty feet last night,
killing the owner and injuring two other
occupants, W. H. Walker of Tacoma
and Miss Mary Thompson.

TYPHOON FATALITIES FEW.
Great Damage to Property in Philip-
pines, but Few Lives
Are Lost.

Manila, Sept. 25.—More extensive
reports regarding the southern typhoon
that swept through the central section
of the Philippine group yesterday, have
been received, indicating that while
there was great damage to property,

the entire block between Third and
Fourth and Washington and Clay
streets, was soon completely de-
stroyed. In this block, among other
business wiped out, were those of the
Bay City Iron Works and the Reliance
Engineering Company.

Other businesses burned are the Par-
cell Safe Company, California Stand-
ard Milling Company, Bay City saloon,
Vetta Pattern Works and Salem horse
market.

It is impossible at this time to esti-
mate the loss, but it will approximate
\$100,000, fully insured.

PROMOTIONS ON ESPEE ROAD.

Four Officers Make Changes
Startling Sequence.

R. H. Ingram to Leave Los
Angeles for Mexico.

H. V. Platt Succeeds to Good
Office Vacated.

San Francisco, Sept. 25.—[Ex-
clusive Dispatch.] Four promotions
of Southern Pacific operating officials
were announced today by Assistant
General Manager Calvin, to take
effect October 1.

The changes result in the resignation
of R. H. Ingram from the coveted po-
sition of general superintendent of the
southern district, with headquarters at
Los Angeles. Ingram, it is understood,
is going to some higher position
offered him by Espee Railroad, who has
charge of all the Harriman lines and
railroad interests in Mexico. Ingram's
place will be taken by H. V. Platt, who
is promoted from the superintendency
of the Los Angeles division.

Platt's place as superintendent of the
Los Angeles division is to be taken by
W. H. Averell, superintendent of the
Tucson division. Averell is a nephew
of the late J. H. Dyer, superintendent
of the line out of the desert country
has been regularly expected since he
was promoted some months ago from
assistant superintendent of the San
Joquin division and sent down into
Arizona as a full-fledged division
superintendent.

Averell's place as superintendent of
the Tucson division is to be taken by
W. H. Wheeler, superintendent of the
Shasta division, with headquarters at
Dunsmuir.

Wheeler's place is to be taken by
J. H. Dyer, plainmaster on the Sacra-
mento division.

Railroad men are guessing as to how
long it will be before Harriman's
nephew comes up into the bay district
and begins to assume more importance
in official positions.

MAXINE ORDERED TO RENO.
Actress Summoned to Answer to Nat
Goodwin's Charge of
Desertion.

San Francisco, Sept. 25.—Bessie Hall Good-
win has been ordered to appear be-
fore Judge Pike on December 20 and
answer to the complaint of divorce filed
against her by Nat C. Goodwin in the
District Court last Monday.

The order was made this morning by Judge
Pike on the affidavit of Goodwin, the
noted painter of New York and Bos-
ton, who has been married to Miss Es-
telle C. Leighton, the beautiful model
who posed for his famous painting,
"The Wood Nymph."

"The Wood Nymph" is about to bring
suit in Boston for separation. This
admission he made today at his pic-
turehouse cabin in White Mountains,
near Wonalancet, N. H.

His wife left him last April because
she had determined to study for the
operatic stage and he opposed her de-
termination. She is now in New York
looking over the opera and rehearsing for
the part she is to play in Reginald
DeKoven's new opera, "The Golden
Butterfly."

Shortly after her marriage to Major
she became acquainted with Mr. and
Mrs. Charles H. Bond of Boston, and
mentioned to them her desire to study
for opera. Bond, who was a millionaire,
had sent Geraldine Farrar, Ada
Chambers and many other Massachu-
setts girls to study, and he
agreed to pay all Mrs. Major's ex-
penses.

In late July, after the separation of
the artist and his wife, Bond com-
mitted suicide by drowning himself in
a bath tub in his mansion at Swamp-
scott, Mass.

San Francisco, Sept. 25.—After
a month spent in examining the
jury necessary to try Abraham
Ruef on the charge of bribery, the
jury has been selected. After three challenges
on each side today, six jurors were
accepted and sworn in.

Henry this morning challenged Meyer
on the ground of bias, and prejudice
against the prosecution, and placed
Joseph B. Seely on the witness stand,
who testified that Meyer said to him
that "the graft prosecution was hurt-
ing business in the city and ought to
be stopped."

Henry Ach, counsel for Ruef, re-
sisted the challenge, which was finally
allowed by Judge Lawlor, but got un-
til the entire morning session had been
consumed with examination and cross-
examination of Seely.

San Francisco, Sept. 25.—A de-
legation of thirty California bankers,
with a number of lesser accompan-
ing a supplementary party, left tonight
by special train for Denver, to attend
the session of the National Bankers'
Association. Saturday will be spent at
Lake Tahoe and a stop will be made
at Salt Lake.

DISCUT FL

100

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.
The Board of Public Works has occasioned surprise in contracting circles by going back to "natural soil" for use in improving city streets in the residence districts.

A Council committee at all day yesterday listening to the testimony in the case against Poundmaster Vacher; the result of the trial probably will be a new system under which the dog catcher will receive a salary, and the city will receive the fines and fees.

Charging fraud and conspiracy, J. W. Higgins of Covina yesterday filed a suit in the Superior Court against J. T. Swett of Texas and F. M. Connor to have set aside deeds to real estate in California and Texas valued at \$400,000.

E. P. Walton, paroled on a forgery charge, was arrested last evening on bench warrant issued by Judge Bordwell. The defendant is accused of tampering with evidence.

C. H. Daniels yesterday filed suit in the Superior Court against the Forest Heights Company to recover \$1500 damages, or to secure the fulfillment of an alleged agreement for the improvement of the Forest Heights tract.

BOARD BACK TO NATURAL SOIL.

NEW OILING PROCESS IN PLACE OF GRAVEL.

"Santa Monica Plan" Receives Approval of the Engineering Department. The Board of Public Works has gone back to the use of "natural soil" for improving city streets in the residence districts. After listening to a property-owners' wrangle for two hours, yesterday, the board decided to recommend that Boyle avenue, from Stephenson avenue to Ninth street, be improved by using natural soil diluted with the "Santa Monica oil process."

Prior to four years ago, several miles of street were improved by the use of the oil on the roadway and a mixture of gravel or concrete. These streets were accepted by the city and the care of them has been as expensive as keeping a whole herd of white elephants.

In the days of its infancy the present Board of Public Works adopted a resolution to the effect that it would oppose the acceptance of any streets improved by the use of the oil on the street in place of a coating of gravel or concrete. It was at this time that the property-owners complained because the price for gravel streets had become so expensive that they came a-pace for a substitute. The oil process was then recommended by the city and the care of them has been as expensive as keeping a whole herd of white elephants.

That the board approves this process as a substitute for a coat of regulation gravel is evident by its action yesterday in recommending that this process be used on Boyle avenue.

Some recent instances of the use of the "Santa Monica process" are to be found on Adams street, between Main and Figueroa streets, and on Alvarado, between Seventh and Pico streets.

In recommending the use of the oil and natural soil, the engineering department holds that the streets will be just as durable when they are not so laid for heavy traffic as the streets that are improved with gravel.

Notwithstanding the conversion of the Board of Public Works to the oil process, strong opposition among those interested in the use and preservation of the streets, against the natural oil process, property owners who have paid from \$4 to \$5 a foot for gravel streets object to being taxed for the care of other streets improved with what is known as a "blackwash" process.

he was keeping all the testimony in order to form the basis for suits for damages which are to come later. In the beginning, the attorneys took issue as to whether or not the oil process was a free field and no favors.

CRIME CHARGED IN LAND DEAL.

COVINA MAN ALLEGES HE HAS BEEN SWINDLED.

Exchange of Ranch for More Than Two Thousand Acres in Southern State Effected, He Says, by Conspiracy—Case Complicated by Agent's Suits for Commissions.

Charging fraud and conspiracy by John T. Swett of Grand Falls, Tex., and J. C. Odell to secure title to his \$150,000 Covina ranch in exchange for Swett's alleged worthless lands in Texas, J. W. Higgins yesterday filed in the Superior Court a suit against Swett and Frank M. Connor. He wishes set aside his deed to Swett of the Covina ranch and a bill of sale for the personal property on it. About \$400,000 in real property is involved in the suit.

Higgins asserts that last August he executed several agreements with Swett, by which, in return for his \$150,000 ranch with its equipment, he was to receive 2165 acres of land and six lots in Ward county, Texas. It was mutually agreed by Higgins and Swett, it is alleged, that each was to return the other with good title to the properties.

The contracting parties adjusted these liabilities and on August 31 a final agreement of exchange was signed, to hold if the titles to the lands should be found satisfactory.

Higgins says that he employed Attorney J. E. Starkey of Barstow, Tex., to examine the title to Swett's lands; that on August 10 he engaged C. E. Guthrie & Co. of Los Angeles to act as his agents in making the exchange, and that he took J. C. Odell, a member of the firm, to Texas with him to look after his interests. He also took with him a deed and bill of sale covering his Covina property, which was to be delivered to Swett only when a report showed that the title to the Texas land titles by Higgins's attorney.

It is alleged that Odell obtained these documents from Higgins under a promise of wishing to examine them and that without Higgins's knowledge he took them to Los Angeles on August 11 and had them recorded, and the deed accepted from Swett quit claim deeds to the Texas land and caused them to be recorded without Higgins's knowledge, acting in conspiracy with Swett to get possession of the Covina property.

Higgins says that not until August 27 did he learn of these alleged acts of Odell. He did not get a report on the title to Swett's land until September 7, and then he was told that only one section of the 2165 acres had ever been patented; that the land was incumbered with \$100,000 of mortgage liens; that Swett had no good title to any of it, and that the property, instead of being worth \$150,000 as Swett is alleged to have represented, is of very doubtful value, if of any value at all.

LOT BUYER SUES.

DEMANDS IMPROVEMENTS.

C. H. Daniels yesterday filed in the Superior Court a suit against the Forest Heights Company, David Stone and Paul H. Blades to recover \$1500 damages, or to compel the defendants to carry out the terms of an alleged agreement to improve the Forest Heights tract.

The plaintiff says that he, in common with many other persons, was led to purchase a lot in the tract from the defendants on the strength of a circular which stated that the lot was improved with gravel and sidewalks and curbs and shade trees would be put in the tract without expense to purchasers of lots.

It is alleged that promises have been kept, that unsightly shacks have been erected, and that the value of property has been depreciated thereby.

owner, and Mrs. S. A. Floyd, lessee, of the Hotel Del Sol, at No. 3721 Fortland street, to recover \$2500 damages, and to enjoin an alleged nuisance. The plaintiff asserts that the burning of a rug in the hotel caused soot, which covers the furnishings in his house, next door.

WILL FILED. Mrs. Florence Auble, widow of Captain of Police Walter H. Auble, who was fatally shot by Carl Sutherland on September 3, filed the officer's will in the Superior Court yesterday for probate. The value of the estate is given as \$2500, and it is divided equally between the widow, who is made executrix without bond, and the children, Earl, Julia and Gladys.

NOT GUILTY. A verdict of not guilty was returned by the jury yesterday, in Judge Bordwell's court, in the case of George O'Connell, former proprietor of the St. Charles saloon at No. 211 North Main street, who was accused of the manslaughter of 13 from the person of Michael O'Brien in June.

CONDEMNATION. The San Gabriel levee district yesterday filed in the Superior Court a suit in condemnation proceedings against John White, and others, to acquire an easement to a 200-foot strip of land across White's ranch for the straightening of the San Gabriel River channel.

HORSE TAKEN? J. D. Ward, accused of the larceny of a horse from the person of J. A. McLean of Pasadena on August 2, was bound over to the Superior Court under \$2000 bail by Justice Seldy yesterday.

MURDER CHARGE. Judge Wilbur yesterday set for January 15 the trial of George O'Connell, charged with the murder of Lee Forbes at San Fernando a few weeks ago. Forbes was shot by O'Connell, after a quarrel, in the street near the intersection of O'Connell's former home, the O'Connell restaurant, and the street of the O'Connell restaurant.

DEPENDANT ILL. At the request of the District Attorney, Judge Jamison yesterday ordered from the calendar the case of Lee Forbes, charged with the murder of Lee Forbes at San Fernando a few weeks ago. Forbes was shot by O'Connell, after a quarrel, in the street near the intersection of O'Connell's former home, the O'Connell restaurant, and the street of the O'Connell restaurant.

REVOLUTIONARY. LEGAL CUSTOM OVERTHROWN.

DEFENDANT IN HABEAS CORPUS CASE NEED NOT APPEAR.

Supreme Tribunal Decides It Is Not Necessary to Produce Prisoner in Court—Thousands of Dollars Will Be Saved to State and County. Decision in Full.

According to a Supreme Court decision in the habeas corpus case of J. L. Murphy of this city, there is no longer need of actually taking a prisoner before the court, upon argument on the petition. This will save State and county thousands of dollars, as it has always been the practice to take the defendant into court while the habeas corpus petition was argued.

In rendering the decision, Chief Justice Beatty says: "In view of the amendment to section 1476 of the Penal Code, adopted 1905, empowering the court, or judge, who directs the issuance of the writ of habeas corpus to admit the prisoner to bail, pending the determination of the proceeding, the order for the issuance of the writ in this case furnishes a proper occasion for a statement by the court of its views concerning the return to be made to the writ where the prisoner has been set at liberty upon filing an undertaking, or sureties, or depositing cash before the return day of the writ."

In such case it is obvious that the officer who has the custody of the prisoner cannot produce his body in court in obedience to the writ and that he can do no more than to show by his return that the prisoner has been set at liberty under the terms of the court order for the purpose of making such return. It is equally obvious that the personal attendance of the officer is not required. As to the prisoner himself, he can always attend at his own expense, or he can be released.

LIQUOR TO INDIANS.

Barstow at First and Broadway Arrived on Charge of Illicit Selling. Drastic Methods.

Rudolph Hoff, a bartender for M. Lustig, proprietor of a saloon at First and Broadway, was arrested by Deputy United States Marshal Fred Durbin, yesterday afternoon, charged with selling liquor to Indians. Lustig gave bail of \$500 for his employee. Earlier in the day Officer Durbin discovered

J.B. BROWN MUSIC CO.
648 S. Broadway Opposite Bullock

Jose Dulce, an Indian witness before the Federal grand jury in an intoxicated condition and he locked him up in the City Jail until he sobered up. The officer then began to investigate the sale of liquor to the wards of the government, and as a result arrested Hoff.

The Federal officers have had much trouble over Indians getting drunk while here on business. Two weeks ago the defendant in a liquor selling case disappeared and was located the next day in an intoxicated condition. The Indian agent himself was also under the influence of liquor at the time, according to his own confession. The grand jury had a liquor selling case under consideration yesterday and it is asserted that the Federal officials will take drastic methods to enforce the law against selling intoxicants to reservation Indians.

TIED OF LIVING.

Export Accountant, Victim of Mistrust. Turns on Gas and Dies.

Leaving Note to Coroner. An inquest of the remains of C. G. Syford, 60 years of age, who committed suicide Thursday night by inhaling gas in his room at No. 237 Maple avenue, will be held this afternoon at the Pierce morgue. The man died early yesterday morning in the Receiving Hospital.

Yesterday a note was found addressed to the Coroner. It had been written by Syford before he turned on the gas. "Please bury me in my new suit," he wrote. "There is no one to blame for this but myself. I just got tired of living. Please notify Mrs. C. G. Syford of No. 113 Ann street, Sacramento, and the pastor of the Baptist Church."

Syford was formerly an expert accountant, and made a good living. About a year ago his eyesight failed him, and he had to quit his work. He could secure no other work for a time, and spent his little savings. He finally went to work in an East First-street saloon, as porter. The work annoyed him and he became morbid. Thursday morning he decided to quit trying to live, and, going to his room, he locked the doors and stuffed the keyholes before turning on the gas.

"SHOOT'S UP" RESTAURANT.

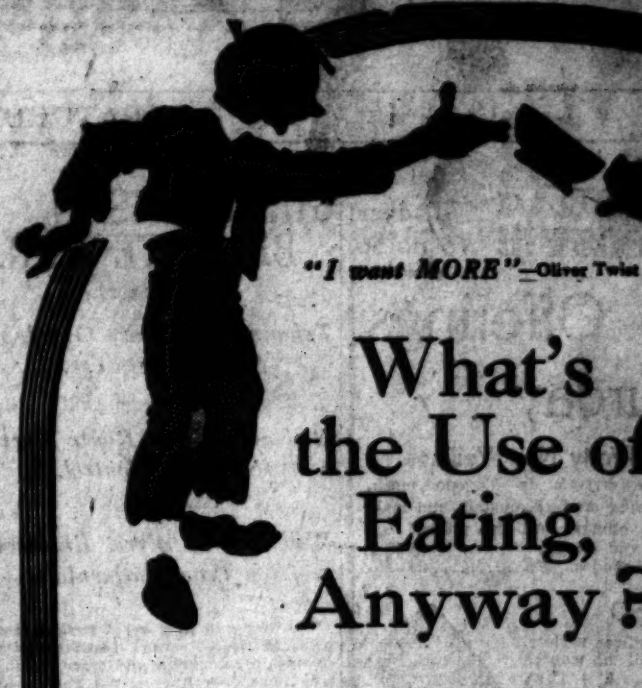

C. W. Renig, former proprietor of the Casino pool hall, was shot and killed by the alternative of spending forty days in the City Jail, after trial before Justice Frederickman, in Police Court yesterday on a charge of flourishing a deadly weapon. Renig, who had been in trouble before, entered a downtown restaurant Thursday night and fired his revolver twice, scaring the patrons into panic. He then went to the street and fired another shot, and attempted to shoot the officers who pursued him. He was captured in his room after he had hidden the revolver under the bed.

For Coughs

New formula to only just under Ayer's Cherry Pectoral. It is a regular medicine, a strong medicine, a doctor's medicine. It would be very interesting to know how many years your family physician has prescribed Ayer's Cherry Pectoral for coughs, colds, and all forms of lung troubles. Ask him the next time you see him. We know physicians who have used it for over half a century.

What's the Use of Eating, Anyway?
What's the use of eating if the food fails to nourish? The ordinary raw oatmeal that is sold as "rolled oats" not only fails to nourish, but irritates the stomach and bowels. It's as different from H-O as sawdust is different from rice pudding.

H-O is steam-cooked under high temperature for three hours by a patent process. You get the "meat" of selected oats, without hulls or dirt, ready for the table after ten or fifteen minutes' boiling. Full of nutriment and easily digested. Ask your grocer for H-O.

BRANCH LINE SURVEY STARTS.

SANTA FE PLANS TO OPEN UP
RICH COUNTRY.

Gold and Copper Mines in the Bill Williams Fork Mountains Will Be Served—Reduction in Freight Rates Gives Phoenix Substantial Advantage Over Los Angeles.

(SPECIAL CORRESPONDENCE OF THE TIMES.)
PRESCOTT (Ariz.) Sept. 24.—Chief Engineer Jaeger of the Santa Fe Railroad has begun a survey for a branch line of the Arizona and California Railroad from Bouse to the Signal mine, about twenty miles distant. The road will pass through the Bill Williams Fork Mountains, through a district that is full of copper and gold mines.

The Santa Fe system has reduced freight rates from Phoenix to Albuquerque and to points on the main line in Arizona that will give Phoenix an advantage of about \$1 a ton over the prevailing rate from Los Angeles on agricultural products. A much lower freight rate on ore has just been published, including all points between Phoenix, Ariz., and Needles, Cal. The rate on \$15 ore from Phoenix is \$3 a ton, running up to \$4.50 on \$100 ore.

TWO TAXES IN ONE.
The municipality of Flagstaff has been in a disorganized condition for a couple of years, the old City Council having failed to meet for the larger part of its term and not having audited any bills against the city. It also failed to see that the taxes for 1907 were collected. Since the late floods have damaged city property, it has become necessary to raise money for improvements, so the new City Council now proposes to collect two years' tax in one.

It is reported in Williams that the great sawmill of the Saginaw and Manistee Lumber Company will be closed down entirely within a short time.

President Ripley of the Santa Fe system will be a prominent member of a large party which will be conducted by F. W. Volz of Canon Diablo on a hunting trip south from Winslow in the Mogollon Mountains.

APPOINTEE DELEGATES.
GOVERNOR NAMES THEM.
PHOENIX (Ariz.) Sept. 24.—Gov. Kibbey has appointed the following as delegates to the National Irrigation Congress at Albuquerque: J. W. Angle of Wilcox, John M. Roberts of Tucson, A. H. Kent and Ed Ingram of Yuma, Dr. Ancil Martin, John D. Orme, C. E. Hill, Frank P. Trot, J. S. Griffin, L. C. Hill, C. M. Etter, H. I. Latham, of Phoenix; John R. Hulitt of Snowflake; J. C. Hansen of St. Joseph; W. H. Clark of Holbrook; Del M. Potter of Clifton.

An interesting visitor in Phoenix yesterday was O. A. Costabue, a member of the Cape Colony Irrigation Congress. He took special interest in this vicinity in that he is a raiser of ostriches on an extensive tract of land, 500 miles north of Cape Town. He investigated the ostrich raising industry here and was very complimentary concerning the condition of the birds. In Africa, the ostriches are turned out on veldt where they are called open range, and are rounded up

two or three times a year, plucked and then turned loose again, practically being left in their native state on their native veldt. Here they are kept confined on alfalfa pastures, usually in enclosures of less than twenty acres.

SCHOOLS ENROLLMENT.
Schools have opened in nearly all the larger towns of the Territory. In Tucson the enrollment on the first day was 1451, of which eighty-nine were in the High School. Phoenix had an enrollment of about 1550 pupils, with 200 in the High School. At Douglas the school started with 1223 pupils. The Normal School at Tempe had 236 admissions during the first week, constituting a record for that institution. Yuma issued school bonds to the amount of \$60,000.

Several years ago, when the Grand Canal heading washed out, the farmers supplied by that waterway parallelled it with what was called the appropriators' canal. Now the Reclamation Service has secured control of both ditches and for a considerable distance will cut the bank between the two canals, making a canal with combined capacity, little, if any, short of the Arizona Canal, now the largest ditch in the valley.

TRESTLE SPANS RIVER.
The Colorado River has been entirely spanned by trestle work at the Laguna dam and railroad trains are now passing over the stream.

At the dam, last Thursday, a Mexican employe, Andres Carrillo, was struck in the dumping of a load of rock and was knocked into the river and drowned.

Something of an indication of the value of date palms as money makers, was shown in the exhibition of a single bunch of the fruit that weighed 144 pounds. This fruit could have been sold at 50 cents a pound, the single bunch thus being worth at least \$72.

VICTIM WELL-KNOWN.
KILLED BY YAGUI INDIANS.
TUCSON, Sept. 24.—R. J. Ruiz, son of the president of the Bank of Sonora, killed by Yaqui Indians last Saturday, near his home city, was well known in Southern Arizona. He was about 30 years old and for some time had been manager of a large ranch in Sonora, south of Douglas. He had been called to Hermosillo to adjust title to lands which he had been willed by deceased relatives.

Judge Nave at Globe has decided that capital stock in a bank is assessable only in the county wherein the corporation has its principal place of business. Another interesting decision by the same jurist construes the requirements of the Federal and Territorial laws as to what work shall be deemed sufficient annual expenditure upon or for the benefit of an unpatented mining claim, to save the claim from forfeiture. The judge interpreted the law mainly upon the ground that good faith must be shown and that the locator should be sustained if he labor a sufficient number of days in good faith for the purpose of performing his annual labor to save the claim from forfeiture and for such labor he would be entitled to credit at the usual wage labor for the time by him consumed.

At Bisbee yesterday ex-policeman Henry Hall was exonerated by a coroner's jury from all blame in connection with the killing of Glen Langford. The evidence showed that he had acted in self-defense.

Tucson Republicans are preparing to try the direct primary for their nomination for the principal county offices.

At Morenci Monday Josephine Brock, negro, committed suicide by saturating her clothing with gasoline and then applying a lighted match. It is believed she was crazed with drink.

FLASHES FROM WIRES.

The next meeting of the International Fisheries Congress will be held in Rome, Italy, in 1911. This decision was reached yesterday. The congress will be held on the occasion of the fiftieth anniversary of the Italian Union.

The House, the official organ of the government, announced yesterday that Serg. A. Mourmestoff, and the other professors and lecturers of the University of Moscow, who were ordered, some weeks ago, to renounce their membership in illegal political parties or resign from the government service, have submitted declarations fully satisfactory to the Ministry of Education and that there is no obstacle to their continuing their university work.

Lord Northcote, Governor-General of the Commonwealth of Australia, who is en route from Sydney to China, arrived at Manila yesterday with his party. Gov.-Gen. Smith greeted the head of the Australian government and entertained the visitors at lunch at Malaca. Later in the day a tour of the city and its suburbs was made. The tender Tanjong was placed at the disposal of Lord Northcote and his party for a tour of the bay, but the visitors were unable to avail themselves of the courtesy.

Kinnes Fritter received a cablegram yesterday from the authorities in Manila, stating that his brother, Lincoln Fritter, had died there of cholera. Mr. Fritter was prominent in real estate circles and at one time was reported to be worth a million dollars. He failed in business and then disappeared. The Alfred McVeigh, mentioned in the Manila dispatches as dying of the cholera is believed to be Lincoln Fritter under an assumed name.

After a stay of nearly a week in Baltimore, during which time he has carefully studied the political situation, John W. Kern, in a statement to the Associated Press, said that he regarded Maryland as certainly a Democratic State, and that Indiana was without doubt as Democratic as Alabama. Mr. Kern left last night for Indiana.

THE great work being done to improve the conditions of life in the country will be the subject of a comprehensive article in The Times Magazine the coming Sunday.

Truth and Quality

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

"Keep Your Eye on The Machine."

The chilly, uncertain days of Fall are a good time to keep your eye on your "digestive machinery." Fortify yourself against bowel disorders by eating

Shredded Wheat

with hot milk and cream every morning for breakfast. Sweetens and cleanses the stomach and keeps the bowels healthy and active. Your grocer sells it.

Heat in Oven Before Serving.

Tickets on sale each Tuesday and Saturday during September and October, Limit 15 days.

Los Angeles County—its Cities and Towns.

WILL STILL KEEP UP THE FIGHT.

PASADENA.
MAYOR EARLEY UNDAUNED BY DEFEAT OF BONDS.

"We Shall Get Municipal Water Yet," He Says—Controlling Interest in Westside Company Reported Secured by Dr. Schiffman—Scherer Makes Success at Throop.

Office of The Times, No. 28 S. Raymond Ave.
PASADENA, Sept. 25.—The big bond failure is still the talk of the town. Martin H. Weight, speaking for the Citizens' Committee yesterday, said he could not at this time make public the future plans of the committee toward the water proposition. He added that the committee expressed its opinion a few days ago in a significant communication. This probably refers to the letter to Mr. Lind, in which the proposition was put forward to pump water from land to be purchased south of the city and establish a municipal company to compete against the other companies.

It is probable that the Citizens' Committee will rest on its laurels until the next municipal election in the spring, and then the matter will be taken up again.

One feature noticeable in the attitude of Mayor Earley yesterday after last night's election when compared with the times he has been in office, was his attitude toward the water proposition. He said yesterday morning: "It is all over now, and let us all remember that we are Pasadenaans. After he was defeated for Mayor he issued a wrathful statement, regarding the city and immediately sold his property and moved to Covina."

Mayor Earley has not quit trying. He had the backing of the majority of the people at the election on Thursday—the bonds failed for lack of a two-thirds lead—and announced that "we shall get municipal water yet." It is also reported that Dr. Rudolph Schiffman, who recently came into the limelight by purchasing several water shares from the Earley-Hill share, has offered to buy the controlling interest in the Westside Land and Water Company.

THE TOURNAMENT QUESTION.
The situation in the Tournament of Roses Association is serious. It is probable the directors will hold a meeting Monday night to determine their future course. Public sentiment is against the association's plan to hold the tournament in the city. It is probable some civic action will be taken to ask the city to keep the tournament out of the city.

It is generally believed that the bonds failed in their position on the ballot, they being the last of the six propositions. It is thought that many faint-hearted people voted for the water bonds, but wishing to economize some vote in the election, they voted for the bonds.

Among other speakers were Dean Arthur H. Chamberlain, who presided, Mrs. Clara B. Burdette and C. D. Daggett, trustees.

President Scherer has certainly won the students by his personality, which suggests genuine strength of character, and he seems to put into every one he meets the incentive to be up and doing.

PASADENA NEWS NOTES.
Albert Lindsey, a rich resident of this city, who was arrested on Thursday afternoon on an insanity complaint, will appear before the Lunacy Commissioners at the County Hospital Monday.

Gen. Sedwig Pratt, U.S.A., retired, has purchased a home at No. 626 St. John's avenue.

The double funeral of Mr. and Mrs. Chauncey R. and Anna H. Torrey took place yesterday. Rev. G. O. Duhamel officiated. Interment was in Mountain View Cemetery. An unusually large number of floral tributes were received.

H. E. Davis and Joseph Mocerius engaged in a fight yesterday. The latter then swore out a warrant charging assault and battery. Justice McDonald will decide the case today.

Tutoring Miss Lauretta Barnaby, 139 Central street.

Wanted—\$15,000 at 7 per cent. three years, Colorado soil, improved property worth more than \$50,000. B. O. Kendall Company.

The Polytechnic Elementary School, which prepares for Throop Institute, opened Monday, September 25. Special course of manual training, domestic science, art, French and German, kindergarten and night grades.

Artist's material for Edwardworth. See Phelps for fine wall paper.

Dr. Up de Graft moved to Chamber of Commerce.

ANOTHER CLUB FORMED.
Colored Republicans of Santa Monica Bay District Organize—Business Men Also Incorporate.

SANTA MONICA, Sept. 25.—For the purpose of uniting the interests of the 150 colored Republican electors of the bay district, the Santa Monica Bay Colored Republican Club has been organized. Thirty signatures have already been secured to the membership roll and officers have been elected as follows: James H. Ellsworth, president; George Simpson, first vice-president; M. G. Reed, second vice-president; James P. Griffin, secretary. The Executive Committee consists of M. Nichols, Garfield Carter, J. D. Johnson, J. F. Griffin and J. P. White. Meetings are to be held each Wednesday evening.

Merchants of the Santa Monica Bay district who have a credit business, have organized a business men's association, and will incorporate and issue rating sheets. The following are the directors: A. M. Montgomery, E. B. Nittinger, H. E. Houston, C. W. Rogers and Ellis Bashore. C. W. Rogers was elected president, and Ellis Bashore secretary.

Through the real estate agency of Miles & Towner, Thomas Blanchard has sold an eight-room mission style bungalow in the Palisades to J. C. Jensen of Pasadena. Mr. Jensen has purchased for a home, the stated consideration being \$7000. In exchange Mr. Blanchard has taken a two and one-half-acre ranch on Lincoln avenue, Pasadena, valued at \$4500.

FIGHT ENDS IN THE POT.

One Contestant in Curious Battle Is Killed.

LONG BEACH, Sept. 25.—While fishing for lobsters last night, Clarence Owens pulled out a monster which weighed nine and three-fourths pounds, and clinging to it was a five-pound sea spider, with long tentacles and ugly temper. They had evidently been fighting, and when dumped on the wharf the spider made "passes" at the lobster, and the latter tried to retaliate with its tail, its weapon of offense and defense.

The spider was still alive and sulky this morning, and was on exhibition, but the lobster had gone into the boiling pot. Owens also caught two eight and one-half-pound lobsters.

CORPORATIONS IN MERRY WAR.

PACIFIC ELECTRIC FORESTALLS HARBOR COMPANY.

Hurriedly Lays Thousand Feet of Track in the Cold Gray Dawn at Wilmington in Order to Prevent Dredger Being Taken Overland to West Basin.

WILMINGTON, Sept. 25.—In a spectacular effort to forestall the Los Angeles Harbor Company, the Pacific Electric Railway laid 1000 feet of track here today.

At 3 o'clock this morning the people of this city were aroused by an unusual noise down near the bay shore. It was soon discovered that the Pacific Electric Railway had run in several carloads of ties and steel rails and that its workmen were laying a track on First street at the intersection of the San Pedro line.

Over a year ago the company secured a franchise to First street for its line which is to extend around the west shore of the bay to San Pedro. The preliminary work was done several months before to hold the franchise and it was a mystery to citizens why the road should now be in such haste to push the work.

REASON FOR HASTE.
The reason was made clear a little after daylight, when a clam-shell dredger anchored off the city street. The report soon spread that the Los Angeles Harbor Company had brought the dredger to this point to have it moved overland into the west basin, where it is to begin operation.

When the Pacific Electric secured its franchise, a dispute arose over the right of way across the then Imperial Investment Company's holdings on blocks A, B and C, near the harbor, where the Machado Lake would have its outlet in the proposed dredging of a canal inland from the bay.

The Imperial Investment Company objected to the railway crossing this without a guarantee that the Pacific Electric Company would construct a draw bridge over the canal, and share of the expense. This the latter company agreed to do, but this new move to rush the building of the road seemed to block a better construction on the matter. It is rumored that the real object is to capture the position before the Harbor Company, which is the successor of the Imperial Company, has an opportunity to sling dirt and claim the right.

HARBOR COMPANY AT A LOSS.
It was evident that the Harbor Company was perplexed by this move as it had been flattered to find that no opposition to its enterprise in developing the west basin would be developed. The company intended to begin work inside, and giving the two railway companies time to complete their bridges at the entrance of the basin at the government turning basin. At first it was proposed to begin work by dredging the channel, and then work through the railways. But now the Harbor Company managers are at a loss which to do, as they find themselves being outwitted by the Pacific Electric.

Secretary Askell of the company said today that it might yet change its plans of inside work and start on the outside and test the matter in the courts at once. In the meantime, the people of Wilmington are excited over the prospect of the old harbor being "lost" and will look on with great interest as the work proceeds.

CITY TRUSTEES ACTIVE.
Meanwhile, the City Trustees are rushing the municipal improvement of the harbor enterprise rapidly as possible. The final resolution giving notice that the bonds are now in the market were passed at the meeting of the Council this week.

The bonds, amounting to \$55,000, will be first offered for sale. The Trustees are anticipating no trouble in disposing of this amount as already they have had a number of inquiries for them. Neither do they suspect any opposition to their improvement work on the part of the corporations. There is a well-defined rumor that the Southern Pacific has already proffered its assistance in helping to bulkhead and fill in its shore line. The old harbor, which is to be maintained a friendly attitude toward these corporations, regarding them as a sort of guardian of the interests of the people. The old harbor cry of anything to be "again" the Espee is not heard now as it was a few months ago.

TRANSFER PATTERNS.
The Times, on Sunday, October 4, and each Sunday thereafter, will distribute to each subscriber and purchaser of the paper a four-page transfer pattern section.

It is a unique, exclusive, attractive feature of particular interest and value to our readers. It will not injure the most delicate fabrics, and is simple that a child can successfully manipulate the process.

Open Saturday All Day and Evening. Send for Color, Top Box, Street, Santa Monica.

WILL DOUBLE ITS CAPACITY.

POMONA PLANT TO BE LARGELY INCREASED AT ONCE.

With Heavy Lantern Mexican Attacks Spadash Rancher—Registration of Voters Shows Large Gain. President of Senior Class Also Editor of High School Publication.

POMONA, Sept. 25.—The success of the Pomona Manufacturing Company in the past five years, during which time its general business has rapidly grown, has led the stockholders to determine upon doubling the capacity of the plant. The company's deep well pumps are installed in all parts of Southern California, and it has lately perfected a gasoline traction engine adapted to farm uses, the first perfect one having been shipped to Ventura this week. It is planned to extend the machine departments of the company, out to the Southern Pacific tracks on the south, and to move the factory buildings to the south from these departments. Also to extend the present north brick building of the plant, eastward, doubling its size. The company gives employment to about 100 men, and is one of Pomona's growing industries.

WILL GO TO TEXAS.
Rev. W. A. Youngman, who has been the most successful pastor of the Methodist Church, has ever had here, expects to leave with his family for Texas after the conference of the organization in Redlands next month.

ATTACKS OLD MAN.
A Mexican named Yoda, who lives just west of Spadash, has been found guilty of assault and battery upon the person of W. H. Arnold and will be sentenced in Justice Barnard's court tomorrow afternoon.

Yoda, who is an old man, a night or two ago the latter visited the place and found no one there. The stock owner, who is an old man, a night or two ago the latter visited the place and found no one there. The stock owner, who is an old man, a night or two ago the latter visited the place and found no one there.

REGISTRATION INCREASES.
The total number of voters just registered in Pomona city by registration clerks E. S. Williams and J. E. Berry, is 3500, an increase of 540 over the registration taken two years ago. This shows Pomona's estimated population, reckoned by the customary unit to be over 10,000. Probably 200 voters failed to register.

Bennett Laderer, who sold his twenty-acre alfalfa ranch to W. S. Orange for \$100,000, is now in the city.

Miss Sylvia Getman, daughter of Mr. and Mrs. Thomas Getman, and Mrs. D. Welch, son of E. A. Welch, have been wedded by Rev. J. A. Crewell. Mr. and Mrs. Welch will make their home at Fairview, Cal.

Wills, who have been elected president of the senior class of the High School and he is also editor of the High School publication, the Chronicle.

Mrs. M. Powers and daughter, Marylyn, have returned from Pasadena, where they have been visiting the former's parents, Mr. and Mrs. David D. Hill.

AMPLE WATER SUPPLY.
The well at the San Antonio Packing Company's new meat plant, east of the city, is 400 feet deep, and will supply the plant with water by means of an electric pumping plant. The water is raised to two galvanized storage tanks holding 2000 and 10,000 gallons, respectively.

The local Fraternal Brotherhood lodge now numbers 500 members, and the organization is continually growing in popularity locally.

F. K. Adams, formerly secretary of the Pomona Fruit Growers' Exchange, has been elected to the position of president of the organization.

CLAREMONT.
CLAREMONT, Sept. 25.—The annual freshmen-senior dance took place yesterday. The dance was held at the Claremont Hotel, and was a great success.

Nearly the entire college community was present. The girls of the rival classes, on either side of the open space around the fence, made things noisy with their class cheers, helped out by sympathetic upper classmen.

On the other side of the fence, a deal of tearing of shirts and the coverings, but no serious harm was done.

Registration in the two main departments of the college show an increase of 100 students over last year. The preparatory department is 140, about the same as last year. These totals will be considerably swelled by late arrivals, and it is expected that last year's total in all departments of 500 will be exceeded.

COVINA.
COVINA, Sept. 25.—Registration took place at the last moment in Covina. The registration clerk, J. M. Stanton, the registration clerk, Wednesday. Two hundred names were added to the list that day. Toward the approach of the election the clerk ran out of blanks, sent to Azusa for more, and finally had to close the list with several waiting men still waiting for the privilege of P. M. citizenship.

The total registration of 300 for the city and 100 for the county.

SAN PEDRO.
SAN PEDRO, Sept. 25.—The Chamber of Commerce held its annual meeting yesterday when the following officers were elected: President, W. P. Bickendach; secretary, A. K. Maloy; treasurer, J. E. Griffin. The directors include the above named and also Ed. H. Baurer, E. D. Seward, John T. Gaffey, E. K. Blanchard and Charles Adair.

55 Planes in One Week!
The Bartlett Music Co. sold over four carloads of pianos last week. What did it do? Great sales still on. Open nights. Double receipt for your first payment up to \$50. Bartlett Music Co., 221 South Broadway, opposite City Hall.

OFFER COMES AS SURPRISE.

LONG BEACH WATER COMPANY NAMES ITS PRICE.

Is Far Below Valuation Recently Fixed by Court, but Company Says It Has Decided to Make Sacrifice, Seeing the Citizens Want to Obtain Municipal Plant.

LONG BEACH, Sept. 25.—The Long Beach Water Company today submitted to the City Council an offer to sell its plant, lands, reservoirs and distributing system to the city for \$497,000, which is within a fraction of twice the amount asked by the Alamitos system for its holdings. The Long Beach company has a distributing system in the city proper and the Alamitos company has none. In the offer the company says that while it believes the system fully worth \$240,000, the value fixed by the court, yet owing to the apparent desire of the citizens to obtain municipal water, it has decided to make a sacrifice.

By securing discounts on outstanding bonds as well as on the stock it is able to make its surprising offer. The company has 123 shares of stock, each with a par value of \$1000, and three distributing reservoirs, with a capacity of 2,500,000 gallons. It also has three pumping plants with a capacity of 4,500,000 gallons every twenty-four hours. The company is also a large landowner, having 1000 acres at any time and expresses a willingness to furnish any information and data desired.

The offer comes as a surprise to the Council, in view of the recent suit against the city to restrain it from enacting a water rate ordinance which the company claims was a violation of its claim on a valuation of its plant at near a million, which the court fixed at \$1,000,000.

PECULIAR INJURY.
Miss Laurelle Chase, a well-known pianist, has been compelled to close her studio, and will go to a hospital for treatment of a peculiar injury. Six weeks ago she crushed a bottle in her hand and a silver of glass severed a cord in the index finger of the right hand. Her physician, working on the finger a point of a surgical needle broke off unnoticed and remained four weeks, during which time the physicians kept up their work, and as a result the foreign substance punctured the cord they were trying to repair. She will be unable to play for several months, and the doctor has expressed that the injury may be permanent.

LIGHTS UP HEAVENS.
A comet flashed across the sky about 8:30 p.m. lighting up the heavens. It was going from south to north and for two seconds made the night almost as brilliant as day. It seemed to be about eighteen inches wide at the head and twenty feet long.

WOMAN IS TARGET.
Detective Phillips and Officer McCown went to West Long Beach today to investigate a shooting affray said to have occurred there yesterday between two women of the half-world. When the police arrived, they found the women, a negress, was made the target of six revolver shots which splattered all about her. When she fell, she was followed by a man with a rifle and chased her all over a lumber yard. At last accounts no arrests had been made.

The Board of Public Works today awarded to the Mercereau Construction Company the contract to build a pier and dock at the foot of Fourth street, West Long Beach, for \$1547. The pier will be 100 feet long and 60 feet wide, and will give a public landing on the street.

HAS NO FEARS.
Officers Austin and Phillips today visited James Griffin, who is charged by his wife at Laporte, Ind., with having deserted her and left her destitute. Griffin admitted his identity and said he had no fear of the police, and that he was a free man.

Griffin says he does not fear any trouble and says his relatives have been told of his whereabouts and his reason for leaving.

ORIGINAL.
USE JEALOUSY AS FISH BAIT.
THE WILY JAPANESE ANGLER'S ORIGINAL METHODS.

Excites the Male Trout in a Pool to Fight a Newcomer, Then Springs a Gang Hook on Them With Good Results to Himself—Customs Among Cormorant Fishers.

[New York Sun.] The Japanese, who do everything the reverse of the occidental order, have their own peculiar ideas of the sport of angling, which in ingenuity at least are an improvement upon the code of Isaac Walton. Perhaps the S.P.C.A. would not approve these oriental methods, but in their march to civilization the Japanese have so far successfully avoided adding this society to their list of blessings.

In trout fishing the simple Japanese sportsman has evolved something that is a far cry from the science of fly casting and the love of spoons and lures. Taking a leaf out of nature's book, he uses a live fish as bait.

The trout stream in Sagami Province with the treacherous intention of snaring the game trout with only jealousy for bait.

He knows the trout's code of ethics and the social order of pool and river better than the western angler, and he bases his hope for sport on something besides the trout's raveling hunger. The wily Japanese fisherman will catch either with snare or hook, a husky male trout.

Being careful not to allow the victim to die in the air, the fisherman snags him with a long pole and then carries him, full of fight and thrashing the water, in a bamboo bucket upstream to another pool. Then the angler proceeds to disturb the tranquility of trout society in that pool and rouse the ire of every male trout under its ripples to his own profit.

He fastens a branching cluster of big, naked hooks at the end of the line which he has woven through the trout's snout about a foot below the point where the wigging victim is anchored. Then screaming himself behind a rock or a near-by tree Mr. Jap tosses the hooks and captive trout up into deep water, keeping one end of the line in his grasp.

The fisherman knows that in Japanese streams at least there is a distribution of the gentleness trout over the course of the waterways which seems to be almost ironclad in application. There are so many male trout to each pool or section of white water; a clan, as it were, ready to hold its fire against all comers. The intrusion of a stranger into one of these watery estates means instant fight.

Almost on the dot a rush of trout and the swirling of water follows the dropping of the hooks and captive trout into the pool. What the fisherman does is to wait craftily until the trout he has in leash seems to be in the thick of a fight for life and then with a sudden jerk to lift captive and gang hooks from the water. It is poor fishing when that sudden interruption of a fight does not bring two or more of the home defenders flapping to the shore impaled on the branching hooks.

The sport continues at the will of the fisherman. He may have to renew his living challenge to battle from time to time as continued assaults weaken the strength of the unfortunate captive, but the certainty of full speed, or rice basket in this case, does not depend upon such unstable elements as a trout's capriciousness, the state of the heavens or volume of water in the stream. Trout in Japan, as the world over, would rather fight than eat in season and out.

Better known perhaps to sportsmen of Europe and America because of its hereditary use by travelers as a second distinctly Japanese variation on the standard sport of rod and reel—the fishing by cormorant. This distinctively Japanese sport in Japan, is really the oriental substitute for the gentle sport of falconry, as practiced by knights and squires depicted in a series of colorful tapestries.

Cormorant fishing is pictured in the oldest of Japanese prints, and many a fisherman has been immortalized by the engraving of the wood blocks in the act of directing his string of fishing birds, Lake Biwa, the large interior sheet of water, is the favorite ground for cormorant fishing. All along the shores of the lake, where the protecting islands give smooth water, the cormorant fishers find good sport.

The cormorant, as most people who live along the sea know, is a water flier built somewhat along the lines of the duck, but with a peculiarly long necked and lean of body. It is a good diver and under water swimmer and a voracious fish eater.

The cormorant fisherman keeps his string of birds as tenderly as a hunter cares for his pack of beagles. He is careful to tend the birds, clip their wings and oil their feathers, and if he is a particularly enthusiastic lover of the sport he will go far afield to buy some specially trained fowl to add to his flock.

When the cormorant fisher goes out to his fishing stamp he has with him a flock of eight or ten cormorants, each with wings clipped to prevent flight and leashed by a slender line of the fisherman's own making, attached to a bamboo collar that fits snugly about the bird's neck. The collar serves as a brake on the appetites of the cormorant, for if he catches a fish while thus bound about the gullet.

Arriving at the fishing grounds, the sportsman takes his place at the stern of the boat and drops the cormorants over into the water one by one. All of the leading strings he gathers round his left hand, holding them loose by his fingers as a whip holds the ribbons. Then the fun begins.

The birds, seeming to get as much fun out of the game as the fisherman, begin to hunt, all piping harshly and diving for the dashing fish. As soon as the fish is hooked, the fisherman pulls it in, and the bird, with a valiant effort, holds its own. The fish cannot swallow, the fisherman singles out that one's head from the shoal in his hand and tosses it into the boat, where the bird is made to disgorge. Then out the fishing bird goes again.

Finally, the master of the cormorants releases the fishing fowls from their bamboo collars long enough to allow them to swallow one fish as a reward for their merit and incentive to further effort.

The excitement comes when two or three birds rise with fish simultaneously in their bills. The fisherman must needs pull them in quickly before their aimless sailing about they blunder into each other, and stamped the whole lot of them. As with an unruly mob, the fisherman flaps the lead of one and another and marks the lines, or when two birds are hooked, he flaps the lead of one and another and marks the lines, or when two birds are hooked, he flaps the lead of one and another and marks the lines.

Fishing the flock at night by the light of the moon is an exciting variation of the sport. The lantern paler of Biwa delight to picture on their slimy creations the beauties of such night fishing.

One way the Japanese have of fishing, if indeed it can be called fishing, does not appear strongly to the humane sportsman. It is a method of foreign origin, and is used in public amusement stalls such as one may see in any show place where the Japanese are to be seen. It appears to base its bid for popularity more on the gratification of cruel instincts than sport.

In Asakusa Park, which is the Coney Island of Tokyo, the foreign wanderer will have his attention directed to an open booth or pavilion which is always crowded with spectators. The angling for carp in public amusement stalls such as one may see in any show place where the Japanese are to be seen. It appears to base its bid for popularity more on the gratification of cruel instincts than sport.

This consists of picking out a fish and by dropping the bent pin hook in front of its mouth, making an attempt to hook it by a quick upward jerk of the line. Once a fish is hooked the problem is to lift it over the side of the tank without breaking the slender reed pole.

If this can be done the successful fisher receives back the copper coin he paid for the fish, and may continue fishing until his reed breaks. In most instances the slender pole breaks before the fish is lifted out of the tank and the fisherman must pay for a new pole.

Since the least struggle on the part of the fish is hooked through the side of the mouth, the fisherman has to break the pole the only chance at success given to the fisher is to tire his catch before attempting to land it. This means forcing the fish to swim car back and forth through the water at the end of the string until it is half drowned and quite exhausted.

The fisherman then reaches up to hook a fish through the eye if he can, and some deliberately try to tear the mouth and gills of the carp in the hope that they will weaken quicker. Baited are held over the tank and allowed to try their luck at such fish as are dead or dying.

THE great work being done to improve the conditions of life in the country will be the subject of a comprehensive article in the Times Magazine the coming Sunday.

MARY ANGELA DICKENS, the grand-daughter of Charles Dickens, has contributed an article for The Times Magazine the coming Sunday.

THERE will be plenty of good fiction in The Times Magazine the coming Sunday.

Men, Wake Up

No ailment peculiar to men is so trivial as to warrant neglect or excuse unskilled and improper treatment. Many of the apparently slight ailments to which the average man pays little or no attention may lead to serious complications and irreparable injury if not promptly and skillfully treated.

We have the largest practice because we cure our patients.

between the indifference and inexperience of the general practitioner on the one hand and the questionable business methods of specialists on the other; the man who is wise enough to consult a specialist and is left in doubt between the horns of a serious dilemma.

Sixteen years of eminently successful and honorable practice, right here in Los Angeles, coupled with the endorsement of many of the leading business men of the city and our well-earned and available reputation for square dealing are excellent reasons why every man should consult in preference to others.

Constitution, examination and expert diagnosis are free in all cases. If the case is simple and uncomplicated, we will cure you speedily. If the case is not simple, if the case is not one coming under this head, our fee will be quite reasonable and you can pay your way. We call you will not be asked for your name and address or for any other information until after treatment. We do not recommend treatment by mail, which is at the best uncertain and unsatisfactory.

WOMEN'S CLUBS.

California has received a full measure of compliments at the hands of that great organization, the National Federation of Women's Clubs, which represents a membership of 1,000,000. The latest honor conferred is upon Mrs. O. Shepard Barnum, who has just been notified of her election as vice-chairman of the Education Committee representing the new department of National Women's Organizations of the N.E.A.

Mrs. Barnum was elected at a meeting of the executive board of the National Federation, held at Colorado Springs recently. Miss Laura Drake Gill, national president of the Collegiate Alumnae Association, is chairman of this board, and is in charge of the N.E.A. department of women's organizations.

The sense of this new department, Mrs. Barnum says, "is the planning of work with the authorities of N.E.A. to help educational work in the United States."

In each State this department will have a representative. Mrs. Fred Burke, wife of the president of the Normal School of San Francisco, who is president of the Collegiate Alumnae Association of California, is chairman of this department in California.

Miss Lucy S. Spence, dean of women at the University of Southern California, has been appointed to represent this State as a member of the Advisory Committee. Miss Gill is planning for California some one line of work, which will be carried on throughout the State, and on the lines of local work, which the need of each county will decide. The aim of the department of women's organizations in the N.E.A. is to put all the possibilities in school interests, of which the common schools, industrial training, beautifying playgrounds, kindergartens, and the like, will be the special concern. Help, not interference, will be the aim to the new department and a diligent effort will be made to find out just what professional educators want to have done, and to help along these lines. Find out what not to do as well as what to do, and to avoid useless effort and conflict.

The new department had its first programme at the Cleveland convention of the national convention of the United States Commissioner of Education E. K. Brown opened. It was at this first departmental meeting that Mrs. Barnum's paper, "The Education of the School," was read, and brought forth favorable comment and discussion. In her paper Mrs. Barnum mapped out in an interesting fashion how women's organizations had helped in matters educational throughout the country, in the improvement of schools, provision of scholarships, introducing and supporting schools for industrial training and household economics.

Friday Morning.

According to the programme just issued, the regular sessions of the Friday Morning Club, begin October 2, at 10:30 a.m., with an address by the new president, Joseph H. Tolhurst.

The newly elected vice-president of the General Federation of Women's Clubs, Mrs. Josiah Evans Cowles, will speak briefly on the results of the biennial at Boston.

Friday, October 9, members of the Club and their friends will be entertained with a piano recital by Rudolph Fritzel.

On the third Friday of the month, October 19, a most interesting programme will be given, when a discussion of language, the Presidential campaign will take place. Mrs. O. P. Clark, will handle the subject for the Republican forces, and Mrs. M. S. Robertson for the Democratic standpoint. Members of the club are on the tip of expectancy over this discussion, which is bound to be a brilliant effort, for both Mrs. Clark and Mrs. Robertson are forceful and convincing speakers.

A lecture on "Picturesque Portugal" by Mrs. Adam Fisher, will occupy the programme of October 23; and the annual tea will take place Tuesday, October 27, when the officers and Board of Directors of the club will receive. The committee of twenty-one will submit its report on Friday, October 30, and the members of the club will then decide "to build or not to build," this being the subject that will be up for debate.

The officers of the club for the new term are: President emerita, Mrs. C. M. Severance; president, Joseph H. Tolhurst; vice-presidents, Misses John R. Haynes and J. B. Lippincott; recording secretary, Mrs. Julia Kaufman; corresponding secretary, Miss Laura Grover Smith; treasurer, Mrs. N. K. Porter; directors, Joseph H. Tolhurst, Mrs. O. P. Clark, Mrs. John R. Haynes, Mrs. Stoddard Jones, Mrs. Julia Kaufman, Mrs. J. B. Lippincott, Dr. Dorothea Moore, Miss Florence Moore, Mrs. N. K. Porter, Mrs. J. F. Sartori, and Miss Laura Grover Smith. Program committee: Joseph H. Tolhurst, chairman; Miss Caroline Van Dyke, literature; Mrs. G. F. Conant, music; Dr. Dorothea Moore, the drama; Mrs. Charles F. Nelson, public affairs; Hospitality Committee: Miss Florence Moore; House Committee: Mrs. Stoddard Jones; Doorkeeper, Mrs. Charles E. Shattuck.

"Get Acquainted" Meeting.

The Mothers' Circle of the Thirtieth street school will hold its first meeting of the season the first Wednesday in October. It will be termed a "get-acquainted" meeting and a hostess of the evening will be an address by Mr. Trutt, after which a reception will be held.

BANNERS GONE.

Athletic Club Director Offers Reward for Emblems Missing from Theater Box.

Frank Garbutt, a director of the Los Angeles Athletic Club, yesterday offered \$100 reward for information leading to the arrest and conviction of the man who stole the banners and emblems with which the Marathon box at the Auditorium Theater is decorated. Capt. Flanner stated that the detectives would do their best to apprehend the thief.

On September 15, following the running of the Marathon race, in which boys of the Athletic Club took part, Manager Crawford entertained the contestants with a party at the theater. The box in which the runners were seated was decorated with banners and emblems of various descriptions, loaned to the Marathon Club by the Dyas-Cline sporting goods house.

After the theater the boys left the boxes with the assurance that the banners, valued at \$30, would be safe the next morning, when the banners were called for, they had disappeared. The manager of the theater called the count for the disappearance; the employees deny having seen them.

TRANSFER PATTERNS.

The Times, on Sunday, October 4, will distribute to each subscriber and purchaser of the paper a four-page TRANSFER PATTERN SECTION.

It is a unique, exclusive, attractive feature of particular interest and value to women. It will not injure the most delicate fabrics, and so simple that a child can successfully manipulate the process.

Hamburger's Store for Men

"The Best in the West"

For the reason that the values we offer positively cannot be duplicated elsewhere at less than one-fourth to one-half more. Stylish suits for which any tailor would charge you twice to three times the price to make. A stock of high grade furnishings so complete in its range of styles, sizes and colorings that gives you a selection you will not find in any other store west of Chicago. As far as the price range is concerned it is in a class entirely by itself, style and quality considered.

\$12.92

Latest coloring. Coats hand-finished. Always retain their perfect fitting qualities. Fancy cuffs or plain.

\$8.50

For men's 50c and 75c silk neckwear.

19c For men's fancy 25c box.

For Men's Dress and Business Suits worth to \$20.00

The reputation this men's store has achieved of being the best in the West is built upon just such sterling values as these. Suits for which any exclusive maker would charge you at least \$25 or \$30. Choice of the new fall chevots, cassimeres, velours and serges. Cheviots, tweeds, velours and worsteds in a choice range of new fall shades and patterns. Stylish checks, plaids, pin stripes and mixed effects. Hand finished. Every suit backed by the Hamburger guarantee for quality and style.

For the New Fall Suits for the Young Chaps, 14 to 20 Years

Cheviots, tweeds, velours and worsteds in a choice range of new fall shades and patterns. Stylish checks, plaids, pin stripes and mixed effects. Hand finished. Every suit backed by the Hamburger guarantee for quality and style.

25c For men's 50c and 75c silk neckwear.

29c For 50c halbrigan underwear.

50c For 35c linen handkerchiefs.

50c For men's 75c unlaundersed shirts.

NARROW SALE Infants' & Children's Wear

The Magic Price

Values to \$3.50 Just

We have saved one of the best and biggest of these "Arrow" sales for the last day—a sale that will prove of intense interest to every Los Angeles mother with little tots to dress. The values are far beyond anything we have ever offered before. Special purchases, combined with regular stock, make the selection practically unlimited. Everything for the little ones to 5 years of age, and not a single garment in the entire assortment but that is worth from one-half to more than three times the price named.

NARROW SALE

Girls' Wool Dress

The values range from \$3 to \$7. We bought these dresses at a price averaging a great deal less than what you would want to pay to shop early Saturday.

A special inducement were going to this entire lot of dresses—the \$7 ones at \$1.94 for choice. You will realize the importance of being here early.

es of serge, cashmere, Panama, and mixed cloth. Light and dark colors of the season's styles. Sizes from 2 to 12 years. Any dress in the lot.

Any Girls' Wash Dress in the

Every one of these dresses are new, right down to the minute in style and we do not purpose for them to become old stock on account of the matter of price. To close them out quickly the entire lot will be out Saturday at just exactly half the regular value, white and colors. Popular materials in all styles. Sizes 6 to 14 years.
